

Smoke Coating (Seamless True Black)

► 應用 Applications

Widely used in automotive interior displays such as Center Information Displays, Cluster Displays, Console, etc.

廣泛應用於車載內裝顯示，如中央資訊顯示(CID)、儀表板、中控台等

► 特點 Features

- Well blended seamless visual between the display's active area and black mask, achieving a smoother and more unified appearance.
面板顯示區域與黑色遮罩之間實現自然無縫的視覺融合，呈現更流暢且一致的外觀
- Reduced boundary visibility helps minimize the perceived presence of the display.
降低顯示邊界的可見度，減少顯示模組的存在感
- The technology delivers functional advantages such as enhanced display contrast.
此技術亦可提升顯示對比度等功能性表現
