

## Decorative FeelnGlass® glass collections

### ► 應用 Applications

Widely used in automotive interior such as Center console, Door trims, buttons etc.

廣泛應用於車載內裝零組件，如中控台、門飾板、按鍵等

### ► 特點 Features

- Glass surface treatments offer significant versatility.  
玻璃表面處理技術具備高度應用彈性
- This versatility enables the imitation of familiar visual and tactile textures, whether natural or artificial.  
透過其多元特性，可模擬各類自然或人工材質的視覺與觸感紋理
- By adjusting the specifications, the targeted appearance and touch feel can be accurately achieved.  
藉由調整製程規格，即可精準實現所需的外觀設計與觸感效果
